**RESPONSE TO OFFICE ACTION**

Sir:

In response to the Office Action mailed August 8, 2003, Applicants respectfully request reconsideration.

Claims 10-29 stand rejected under the judicially-created doctrine of obvious-type double patenting as purportedly being unpatentable over the claims of U.S. Patent No. 6,162,706 (the '706 patent) in view of Wolf, et al. Applicants respectfully disagree with the obviousness-type double patenting rejection because the patented claims of the '706 patent in view of Wolf et al. do not render obvious claims 10-29. However, to further prosecution of this application, Applicants submit herewith a Terminal Disclaimer for this application with respect to the '706 patent. Accordingly, Applicants respectfully request that the obviousness-type double patenting rejection of claims 10-29 be withdrawn.
